Thank you very much for the update and notice. Could you check with Tom Stoops on informing Ed Thamke at MDEQ's Haz Waste program? CFAC has a subcontractor on site working under order to remove the asbestos. You will all need safety equipment and I want to be sure the other half of DEQ is in the loop. I think Tom should contact Ed.

Thanks!

Just thought I would let you know I have set up a site tour for CFAC with MT DEQ per their request. DEQ will be in Libby that week and we are setting this visit up on the end of that week.

Hi Tom,

I just got off the phone with Steve Wright, CFAC manager, and we are all set for Friday July 17th around 9:30 am for a tour of the facility.

I was hoping to coordinate through you, since the NPL aspect is through EPA and we consult. Do you mind do that? I'm trying to get people here to recognize our role.

Hi Tom,

Your plans for Friday sound fine with me. You're more than welcome to ride with me. (or any of you for that matter) Will you be contacting CFAC for permission to tour the facility? Let me know if you need a POC or need me to schedule.

Mike,

I'm thinking Lisa DeWitt, Jeni Flatow, and myself would be going with you to see the site on Friday 7-17 (not sure about Carolyn). I'm thinking we leave the Venture Inn about 7:30 we should be in Columbia Falls by 9:15 or so to meet you (or I could ride with you and they could follow us), your call on that. I'm thinking we would only need an hour to hour and half on site, and would thank you for your time around 11. How does that work for now?

Tom
